# Yehuda Shtern

## Full stack developer

## Work experience

### A Full stack developer at Solution company

Tel-Aviv, Israel July 2023

The Solution company is engaged in connecting investors to young startups. My role in the company was to develop the platform and manage a team of three programmers.

Stack: Node.js, JavaScript, CSS, TeamWork.

### Management of a factory for leather art

Petah-Tikva, Israel 2019-2022

I worked in a factory as a deputy manager during my programming studies, I helped in the development of the company's website and thus came to an educational act in the field of full stack.

## Education

### Full stack developer

Ort Singalovski

2021-2023

The curriculum at Full Stack in ort was well structured and comprehensive, and gave me a wide variety of programming languages, frameworks, concepts and more. I acquired a solid foundation in website development and object-oriented programming. I managed a team that developed a project that helps manage the field of changing tenants.
